Software Engineer | Front-End Development Specialist

SUMMARY

Passionate Software Engineer with a strong focus on Front-End Development. Specializes in building dynamic, responsive web applications using Angular (v16+), TypeScript, JavaScript. Committed to writing clean, efficient code and delivering seamless user experiences across devices, with a background in Software Engineering from the Syrian Virtual University and hands-on experience using Git and GitHub, I thrive in collaborative environments and enjoy solving complex problems with elegant, scalable solutions. Actively seeking freelance or remote opportunities to contribute to impactful projects and grow alongside passionate teams.

CORE COMPETENCIES

- **Frontend Development:** Expert in Angular ecosystem, TypeScript, and modern JavaScript
- **Responsive Design:** Mobile-first approach with cross-browser compatibility
- **State Management:** RxJS, Angular Services and signals, currently learning NgRx
- **Version Control:** Advanced Git workflows and collaborative development
- **Problem Solving:** Strong analytical skills with focus on scalable solutions
- **Team Collaboration:** Skilled in clear communication, active listening, and collaborative problem-solving across diverse teams, familiar with Agile practices such as sprint planning and iterative development

EDUCATION

B.Sc. Information Technology Engineering (Software Development) – *Syrian Virtual University*
Expected Graduation: 2025

PROJECT EXPERIENCE

School Management System | TypeScript & Object-Oriented Design | [Link](#)

- Developed CRUD operations for student and teacher management with type-safe structures.
- Implemented grade management with validation, reporting, and advanced search.
- Built multilingual interface with Arabic support and error handling.

Souk Plus E-commerce Platform | [Link](#)

- Designed and implemented a feature-rich e-commerce frontend for buyers and sellers
- Built product management dashboard and secure checkout system.
- Delivered responsive UI ensuring consistent experience across devices.

Union Exam Portal | Darrebni Final Project | [Link](#)

- Developed a comprehensive web platform supporting Syrian students in national exam preparation
- Built responsive UI using Angular and Angular Material with mobile-first approach
- Organized educational content across 6 faculties with efficient reference tracking system

CERTIFICATIONS

Frontend Web Developer | Darrebni Training Institute | [View credential](#)

TECHNICAL EXPERIENCE

Frontend: Angular (v16+), TypeScript, JavaScript (ES6+), HTML5, CSS3, RxJS, NgRx (Learning)

UI Libraries: : Angular Material, Bootstrap, PrimeNG

University coursework: C#, SQL, Oracle

Tools: Git, GitHub, VS Code, npm, CLI

Methods: Agile/Scrum
